

The image shows the back of a white, handheld electronic device. At the top, a black antenna extends upwards. Below the antenna, there is a small, rectangular, recessed area. Further down, a white label with black text is affixed to the device. The label contains the FCC ID and a statement about FCC compliance. Below the label, there is a larger, rectangular, recessed area with a stylized envelope icon and three horizontal lines. The device has several circular holes, likely for screws or ventilation. The background is dark and textured.

FCC ID: 2AAF8G100037

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
